SUMMARY

CS undergraduate at SJSU (BS, 2028) with applied research experience in AI/ML, inclusive computing, and full-stack web engineering. Co-author of a peer-reviewed ACM SIGCSE 2026 publication; conference poster presenter. Proficient in Python, Java, JavaScript, and Git. Targeting a Summer 2026 software engineering or AI/ML internship.

EXPERIENCE

Technical Operations & Web Lead | Silicon Valley Entrepreneurship Club · Internship Dec 2025 – Present

- Engineered and deployed club's official website end-to-end, boosting monthly visitor engagement by 40% by optimizing UI/UX architecture and full-stack performance
- Secured 4 corporate technology sponsors, expanding operational budget by 35%, by pitching to and negotiating partnership terms with Silicon Valley firms
- Grew social media following by 30% and boosted event attendance by 25% by executing cross-channel digital marketing campaigns across 3 platforms
- Coordinated 6+ entrepreneurship events for 150+ attendees end-to-end, managing venue logistics, speaker booking, and real-time execution

Undergraduate Researcher | SJSU CSEd Research Lab 2024 – Present

- Improved average participant confidence scores by 24% across 60 SJSU students by co-designing and analyzing pre/post surveys for a bilingual programming workshop using the Hedy multilingual platform
- Expanded CS accessibility for underrepresented learners by facilitating 3+ inclusive computing workshops and conducting qualitative research on structural barriers to CS education

AI/ML Developer | IBM SkillsBuild AI Experiential Learning Lab 2024 – May 2026

- Built AI-powered financial intelligence app using IBM Watson NLP that ingested sentiment data from 50+ live market sources daily, generating equity scores across 5 quantitative dimensions with 78% directional accuracy on 6-month backtests
- Reduced manual equity research time by ~60% by engineering an automated signal pipeline on IBM Watson Studio; earned IBM AI Fundamentals credentials in NLP, model evaluation, and responsible AI design

Curriculum & Workshop Lead | Coding Warriors, SJSU 2024 – Present

- Boosted weekly club participation by 20% by designing 5+ challenge-based programming events with novel formats that drew students across all skill levels
- Improved beginner comprehension outcomes by facilitating 10+ Python and Java workshops for 30+ students, translating advanced CS concepts into accessible formats

LEADERSHIP & INVOLVEMENT

Board Treasurer | Kappa Sigma Fraternity, SJSU Jan 2025 – Present

- Optimized chapter operations for 50+ active members by centralizing communication and scheduling systems, improving cross-functional alignment across all board roles
- Executed 10+ large-scale chapter events by coordinating cross-functional teams and managing timelines and resource allocation under tight deadlines
- Maintained 100% university compliance by enforcing chapter safety protocols and risk policies across all official functions

House Improvement Chair | Kappa Sigma Fraternity, SJSU Aug 2024 – Jan 2025

- Delivered 5+ facility improvement projects across event spaces and common rooms on time and within budget by coordinating with 3+ vendors and contractors
- Enhanced chapter event readiness by developing space optimization plans and sustainable maintenance schedules aligned with programming needs

Varsity Football (WR / FB / OLB) | League MVP | Lynbrook High School 2022 – 2024

EDUCATION

San José State University — BS, Computer Science Expected May 2028

Coursework: Data Structures & Algorithms, Discrete Mathematics, Object-Oriented Programming (Java/Python)

Lynbrook High School — Valedictorian, 4.0 GPA 2024

TECHNICAL SKILLS

AI / ML: Large Language Models (LLMs), NLP, Machine Learning, IBM Watson Studio, Financial Sentiment Analysis, RAG

Programming: Python, Java, JavaScript, SQL

Web & Tools: Full-Stack Development, React, Git/GitHub, Hedy

Research: Survey Design, Mixed-Methods Analysis, Statistical Analysis, Empirical Studies, IRB Protocol, Data Visualization, HCI
