## SUMMARY

Analytically driven CS undergraduate at SJSU (BS, 2028) combining quantitative research, AI-driven financial modeling, and operational leadership. Built an NLP-powered equity scoring platform; co-author of a peer-reviewed ACM SIGCSE 2026 publication. Skilled in Python, data analysis, and financial application development. Targeting a Summer 2026 internship in finance, fintech, or business strategy.

## EXPERIENCE

### Technical Operations & Web Lead | Silicon Valley Entrepreneurship Club · Internship Dec 2025 – Present

- Secured 4 corporate technology sponsors, expanding operational budget by 35%, by cold-pitching and negotiating partnership terms directly with Silicon Valley technology firms
- Engineered and deployed club's official website end-to-end, boosting monthly visitor engagement by 40% through UI optimization and full-stack performance improvements
- Drove 30% social media growth and 25% event attendance increase by designing and executing cross-channel digital marketing campaigns across 3 platforms
- Coordinated 6+ high-impact entrepreneurship events for 150+ attendees, overseeing end-to-end logistics, speaker acquisition, and real-time operational execution

### AI/ML Developer | IBM SkillsBuild AI Experiential Learning Lab 2024 – May 2026

- Built AI-powered equity scoring platform using IBM Watson NLP, ingesting sentiment data from 50+ live market sources daily and generating 5-factor buy/hold/sell signals with 78% directional accuracy on 6-month backtests
- Reduced manual equity research time by ~60% by engineering an automated signal generation pipeline; applied supervised and unsupervised ML to structured financial datasets on IBM Watson Studio

### Undergraduate Researcher | SJSU CEd Research Lab 2024 – Present

- Improved average participant confidence scores by 24% across 60 SJSU students by designing and running pre/post survey analysis using mixed-methods quantitative and qualitative research frameworks
- Expanded CS accessibility for underrepresented learners by facilitating 3+ inclusive computing workshops and collecting qualitative data on structural barriers to education

### Curriculum & Workshop Lead | Coding Warriors, SJSU 2024 – Present

- Boosted weekly participation by 20% and engaged 30+ students across 10+ workshops by designing 5+ challenge-based programming events with measurable learning outcomes

## LEADERSHIP & INVOLVEMENT

### Board Treasurer | Kappa Sigma Fraternity, SJSU Jan 2025 – Present

- Oversaw chapter financial records and budget allocation across events, operations, and maintenance, ensuring transparent reporting to all executive board stakeholders
- Executed 10+ large-scale chapter events by coordinating cross-functional teams, managing timelines, and allocating resources under tight budget constraints
- Served as primary liaison between the executive board and 6 committee chairs, ensuring organizational objectives were met on schedule and within operational scope

### House Improvement Chair | Kappa Sigma Fraternity, SJSU Aug 2024 – Jan 2025

- Delivered 5+ facility improvement projects within budget by managing vendor relationships, resource allocation, and project timelines across event and common spaces

### Varsity Football (WR / FB / OLB) | League MVP | Lynbrook High School 2022 – 2024

## EDUCATION

### San José State University — BS, Computer Science Expected May 2028

Coursework: Data Structures & Algorithms, Discrete Mathematics, Object-Oriented Programming (Java/Python)

### Lynbrook High School — Valedictorian, 4.0 GPA 2024

## TECHNICAL SKILLS

**AI / ML:** Large Language Models (LLMs), NLP, Machine Learning, IBM Watson Studio, Financial Sentiment Analysis, Quantitative Modeling

**Programming:** Python, Java, JavaScript, SQL

**Web & Tools:** Full-Stack Development, React, Git/GitHub, Excel

**Research & Analysis:** Survey Design, Mixed-Methods Analysis, Statistical Analysis, Financial Data Analysis, IRB Protocol, Data Visualization, HCI

**Spoken Languages:** Arabic (Native), English (Fluent)
